Custer Baptist Association.

The twenty-fourth annual session of the Custer Baptist association was held last Friday and Saturday with the Bethel union Baptist church.

It was one of the best sessions that has been held notwithstanding the very busy times. The attendance was good and most of the churches were well represented. There were 55 delegates enrolled.

Besides the resident ministers of the association were, Revs. Bigs of Omaha; Calston of Lincoln and Fosket of Grand Island. The churches reporting were, Ansley, Mason, first and second Eudell, Lomax, Lodi, Arnold, Merna, Burwell and Broken Bow.

The next session will be held with the Second Eudell, Friday before the first Sunday in August.

The officers elected for the ensuing year are as follows: D. M. Amsberry, moderator; Mrs. J. H. Kerr, clerk; H. E. Hall of Mason, city treasurer. Rev. J. R. Woods was elected chairman of the missionary committee.

Rev. J. D. Brady was elected delegate to the Northern Baptist convention in Oklahoma; H. G. Burrows, delegate to the B. Y. P. U. state convention.

Resolutions commending the members of the Bethel Union church for the cordial manner in which they entertained the delegates and large numbers of visitors during the association.

Horses at the County Fair.

There is great educational value in the inspection of the live stock exhibits at the county fair. In the equine line the difference in the breeds is accentuated to a high degree. The mammoth Percherons, weighing almost a ton, are imposing and magnificent, giving evidence of their great strength and ability to perform the duties for which they are most sought.

They are also riding and driving horses, high-bred animals nervous and alert—full of fire and dash. Other horses are shown for their speed to the boot and spur. These animals show abnormal development along certain lines and are a most astonishing contrast to the massive-built Percherons.

All the breeds and types are interesting to spectators, and doubly so to those devoted to horses. A trip to the horse barns on the fair grounds is well worth taking in. There is something to interest and instruct everyone. To the fancier the display indicates the great development of the breeding industry in Nebraska. There is no reason why the best horses in the world cannot be grown in this state—and many people are confident they can. The climatic conditions are favorable and there is no section of the country with purer air or better and more abundant food-stuffs.

There is something in the climate that goes to build up the bone of the animals and makes them, especially the larger types, the ideal horses for the popular markets.

The exhibits at the fair indicate that many enterprising residents of Custer county are going into the business of raising thoroughbred equines and their success, as well as the possibilities of the industries is amply demonstrated by the splendid showing at the fair.

Mr. Bryan to be Heard.

The report that Mr. Bryan will announce his platform for 1908 when he rouses the Hoosier Democracy may be dismissed as a reflection upon his well known views of the subservency of any Democrat, however great and good, to his party. Mr. Bryan would not assume to dictate. Parties make platforms, candidates stand on them. It is a secret no longer that Mr. Bryan is in a receptive mood with regard to the Democratic platform of 1908. He has views, but would not thrust them upon the party. Let sleeping dogs lie. Mr. Bryan is for harmony if he must be a candidate. Should any view he has not suit his friends he will stretch a point and drop it. All previous "key-notes" are unauthorized. Mr. Bryan will speak for himself at Lafayette in November.

I is Tom-Foolery. It is foolishness, it is a short-sighted business policy to buy shoddy goods. Don't forget that there are shoddy drug store goods.
